ABSTRACT

INTRODUCTION

Bacterial strains and growth conditions:

MATERIALS & METHODS

Selection of resistant mutants:

Bacterial strains and growth conditions:

RESULTS

DISCUSSIONS AND CONCLUSIONS

Table 1. MICS (µg/ml) of Parent Strains and First Step Mutants of S. aureus

Table 2. Substitution in ORQR of First Step Selected Mutants of S. aureus

Table 3. MICS (µg/ml) of FQs Against Second Step Selected Mutants of S. aureus

Table 4. Substitution in ORQR of Second Step Selected Mutants
